

Frida Pakdaman

Junior Frontend Developer | React | TypeScript | UX/UI

+46 730 415 204 | farideh.pakdaman@yh.nackademin.se | [LinkedIn](#) | [Portfolio](#)

PROFILE

Junior Frontend Developer focused on React, modern web interfaces and user experience. I build responsive web applications with React, JavaScript, HTML/CSS and Git, while currently deepening my skills in TypeScript, Next.js and Node.js.

My background in architecture, design and customer-facing projects gives me a strong understanding of user needs, visual quality, problem-solving and requirements. I also use AI-assisted development to support debugging, code analysis and faster iteration.

TECHNICAL SKILLS

Frontend: React, JavaScript, HTML5, CSS3, Sass/SCSS, Responsive Web Design

Currently developing: TypeScript, Next.js, Node.js

React & Web: React Router, state management, props, controlled forms, dynamic routing

API & CMS: REST APIs, Strapi CMS, JSON, JWT

UX/UI: Figma, WCAG, accessibility, responsive design, Lighthouse

Tools: Git, GitHub, Vite, VS Code

AI-assisted development: ChatGPT, Claude, prompt design, debugging, code analysis and prototyping

Ways of working: Agile/Scrum, problem-solving, collaboration, ownership and requirements understanding

SELECTED PROJECTS

Catch - React Productivity App

React | Vite | React Router | JavaScript | CSS

Built a React application for organising notes, ideas and tasks with a clear, user-friendly structure.

- Built reusable components and managed application data with state and props.
- Implemented search, category filtering and controlled forms.
- Used React Router, dynamic routes and useParams for detail pages.

Eventera - Event Web Application

JavaScript | HTML | CSS

Built a responsive event platform with search, filtering, sorting, booking and capacity-management functionality.

- Worked with responsive design, accessibility and usability.
- Achieved 90+ Lighthouse scores in relevant quality areas.

StoryDucks - Book & Rating Platform

JavaScript | Strapi v5 | REST API | JWT

Built a web application with book lists, ratings and user profiles.

- Integrated the frontend with REST APIs and Strapi CMS.
- Implemented JWT authentication and data handling between frontend and backend.

SELECTED PROJECTS - CONTINUED

Frida Studio - UX/UI Project

Figma | UX/UI | Responsive Design

Developed a digital service concept from user needs and information architecture to wireframes and final UI design in Figma.

EDUCATION

Frontend Development

Nackademin, Stockholm | 2025-2027

Higher Vocational Education (YH) programme in modern frontend development, including JavaScript, React, TypeScript, API integration, UX/UI, Git/GitHub, accessibility and agile ways of working.

Bachelor's Degree - Architecture

Asrar Institute, Mashhad, Iran | 2007-2012

Studies in design, structure, spatial problem-solving and visual communication.

PROFESSIONAL EXPERIENCE

Kitchen Designer / Key Account Manager

Electrolux Home, Stockholm | 2021-2024

- Analysed customer needs and requirements and translated them into functional design solutions.
- Managed projects from initial customer dialogue to final delivery and coordinated multiple stakeholders.

Kitchen Designer & Project Coordination

Kvik Bredden | 2021

Managed customer projects with a focus on function, design, problem-solving and clear communication.

Home Stylist

Insyn Interiör, Stockholm | 2021-2022

Developed visual concepts with a focus on function, user experience and aesthetics.
